- Strengthening workplace safety, and ensuring that inspectors are protecting workers from the "production-first" culture that causes accidents
- Siding with the coal industry, instead of President Obama, when the EPA wanted to implement burdensome regulations that hurt Ohio's workers
- Voting against cap and trade, because protecting our environment shouldn't mean hurting the hard-working men and women in manufacturing
- Supporting tax credits for the coal industry so that more jobs are created and Ohioans have affordable utility rates

Lea Marquez Peterson

will follow Donald Trump's lead in Washington.

A lifelong, die-hard Republican, Marquez Peterson is poised to get in line behind Trump and the Republicans in Washington, helping them pass their agenda. Marquez Peterson supports:

- Repealing the law that protects people with pre-existing conditions, like cancer or diabetes. Her supporters in Congress passed a bill that would force people over 50 to pay five times more for healthcare. The AARP even calls it an "age tax."¹
- A tax bill that gives 83% of the benefits to millionaires and corporations. Her allies in Congress say they'll pay for it with massive cuts to Medicare and Social Security.²
- A controversial school voucher plan supported by billionaire Betsy DeVos that would take millions out of Arizona's public schools and give to private schools.³

Congress needs leaders, not more sheep like Lea Marquez Peterson.

ANN KIRKPATRICK FOR CONGRESS

As a South Florida legislator for more than two decades, **Debbie Wasserman Schultz** has authored and passed laws to prevent childhood drowning.

Her bill in Congress, the **Virginia Graeme Baker Pool and Spa Safety Act**, is our country's first national pool-safety legislation to prevent childhood drowning. The law gives states financial incentives to install fences, pool covers and other safety devices. It also requires ALL public pools to install drain covers and automatic pump shutdowns. Since the law passed, there hasn't been a single fatal drowning in American public pools and spas due to entrapment.

In Congress, Debbie is always advocating for South Florida's families:

- **Sponsoring and passing** the PROTECT Our Children Act to capture Internet predators.
- **Standing strong** against the NIA and fighting for commonsense gun reform.
- **Passing the EARLY Act** to launch a national education campaign about the threat breast cancer poses to young women and minorities who are at higher risk.
- **Taking on the insurance companies** to get us preventive care, mammograms, and well-child visits with no out-of-pocket costs.

On November 8th, Re-elect **DEBBIE WASSERMAN SCHULTZ** FOR CONGRESS

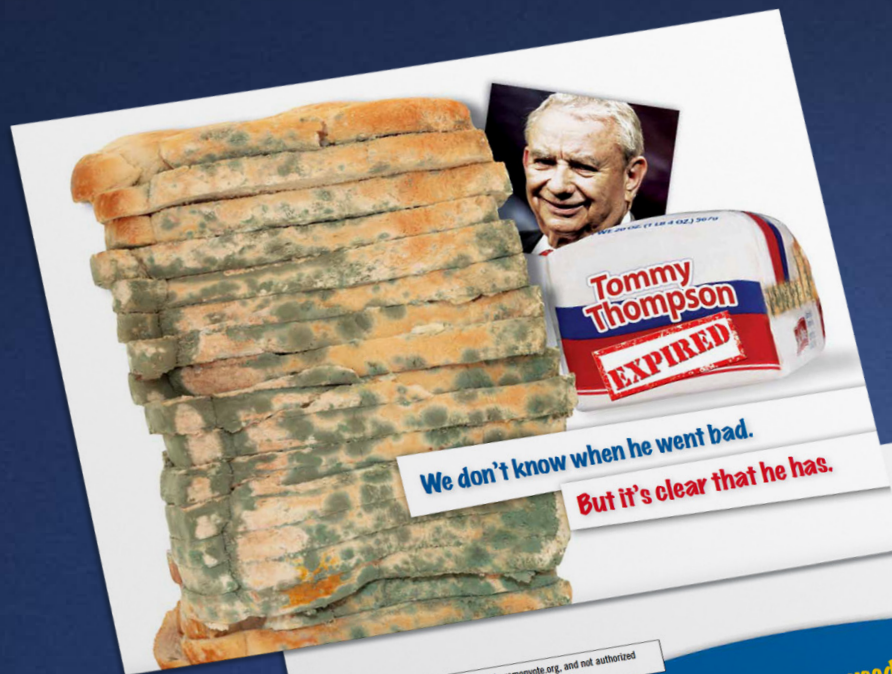

From Sunrise to Surfside, South Florida has a champion in Debbie Wasserman Schultz.

Dear [First Name],

Like you, I took an oath to protect our nation. No one ever said it was going to be easy in the service, but our fellow veterans shouldn't have to suffer after coming home. **Our government has the power to help veterans, but far too often politicians just use our stories for publicity, only to turn around and refuse to act.** Just this summer, senators in D.C. attempted to stop a bill that would have provided healthcare for veterans who were exposed to toxic burn pits and Agent Orange—both proven causes of cancer and other serious respiratory issues.

Veterans shouldn't have to struggle to find employment and housing, and we shouldn't have to beg our politicians to help us get decent healthcare to treat our war injuries.

This upcoming election in November will be critical to the health of our nation, our democracy, and the health of our fellow veterans. **Don't wait—make a plan to vote today.**
